2020 BREEDING SHED RULES AND INFORMATION FOR TRANSIENT STALLION OWNERS

- The stallion semen collection fee in 2020 is \$215. This includes collection of semen, extension, and packaging for one shipment/ mare. If additional doses are requested in the same shipment, a fee of \$100 will be charged per dose/ mare. There is a fee of \$50 for centrifugation of semen prior to shipment, if required. It is our preference that the stallion owner provides the semen shipping container(s). If Nandi Veterinary Associates provides the shipping container, it will be a non-refundable disposable container (\$30). If a mare owner has specifically requested that an Equitainer be used for the shipment, it is the responsibility of the stallion/ mare owner to provide an Equitainer.
- Nandi Veterinary Clinic breeding shed will be open February 10, 2020 thru July 15, 2020. After July 15, 2020 the breeding shed will be open on a limited basis so please call well in advance for breeding shed availability. Collection days are Monday, Wednesday, Friday, and Saturday. Due to scheduling constraints, availability of collections requested for Tuesday, Thursday, or Sunday cannot be guaranteed and collection times could be very limited. Non-resident stallions are generally collected between 1:30pm and 3:30pm unless special arrangements can be made, i.e. same-day shipments may require early courier pick up time. Requests for semen collection should be made the day before but we will accept requests up till 10:00am the day of the desired collection. It is very important when calling the office to schedule a collection that it is made known if you are planning on having Nandi Veterinary Associates arrange shipment of the semen. FedEx, UPS and York Delivery Services all have time deadlines we must meet to schedule a pick up.
- **All stallions will be blood and/or semen tested for EVA and cultured for CEM at first collection at Nandi Veterinary Clinic at the stallion owners expense unless record of current testing and vaccination is provided.**
- If you ask us to do the actual shipping, please do the following:
 - Have a FedEx or UPS air-bill already prepared.

OR

 - Provide all information (address/telephone number) regarding the destination of the shipment including a FedEx/UPS account number. Please note a fee of \$5 will be added to the collection fee for each FedEx or UPS airbill, and \$10 for each air freight air-bill provided and prepared by Nandi.

Please be advised FedEx/ UPS does not deliver to all addresses on Saturday. It is your responsibility to confirm the availability of Saturday delivery to the destination address for all shipments collected and sent out on Friday for Saturday delivery.
- Shipping fees are difficult to estimate because they can vary due to type of packaging (weight), distance, and any special handling. All shipping fees are the responsibility of the stallion/ mare owner. FedEx/UPS fees will be billed to the stallion/ mare owner's FedEx/ UPS account number or credit card. To set up an account call FedEx at 1-800-463-3339 or UPS at 1-800-742-5877.
- If a semen shipment must be sent same-day service via an airline, the airline and courier fees are to be paid by the stallion/ mare owner. A courier service out of York, PA provides service for shipments out of Harrisburg International Airport (MDT) in Harrisburg, PA and Baltimore-Washington International Airport (BWI) in Baltimore, MD for a base fee of \$195(*est.), rates are higher on holidays and weekends. We currently have accounts with South West, and Delta airlines. Notification of same-day service needs to be made to Nandi Veterinary Associates **before 9:00a.m.** the day of shipment for adequate scheduling time. The air freight fee is \$100(*est.). *All estimated fees are subject to change according to the service provider billing.
- Payment for services is due at the time of service. We accept the following forms of payment: cash, check, American Express, Visa, MasterCard, or Discover. Semen **WILL NOT** be collected without prior payment.
